

Benefits of the Auvesta Gold Depot

1

Growing Your Stack

You can take advantage of the Gold-Silver Ratio through the Switchpilot.

Swap gold into silver and back again to build up more grams over time.

2

Saving Money

Buy silver, platinum, and palladium completely VAT-free.

From the very first gram, you're already paying less than market price.

Store your metals in a high-security vault at super affordable rates.

3

Saving Time

Buy precious metals anytime, right from your couch.

Set up a savings plan and the whole process runs on autopilot — no more time wasted on manual purchases.

4

Security

Your metals are stored professionally in high-security vaults in Switzerland, the UK, Singapore, and Germany.

No risk of keeping it at home yourself.

Everything is stored as your personal property and is 100% insured.

5

Flexibility

Buy and sell precious metals starting from just €1.

Your balance is credited precisely to the fourth decimal place.

Savings plan, purchase and sale amounts are completely up to you — no obligations whatsoever.

6

Speed

Sell at any current market price, whenever you want.

Your money lands back in your bank account within 0–1 day — even for larger sale amounts.
